Master of Computer Applications — *2021-Present*

Andhra Pradesh Residential Degree College — Nagarjuna Sagar
Bachelor of Sciences (Mathematics, Statistics, Computer Science) — *2018-2021*

PROJECTS

Movie App | Website link
- The Movie app is an exceptionally convenient web application designed specifically for movie enthusiasts. With this user-friendly platform, users can effortlessly access comprehensive information about movies. From ratings to summaries and much more, this app provides a one-stop solution for all your movie needs. Discover the latest films, explore detailed summaries, and make informed decisions about what to watch next with the help of The Movie app.
- Experience a seamless browsing experience across various devices with our user-friendly web design. Whether you're using a desktop, mobile, or tablet, our website can be easily accessed and navigated. Say goodbye to frustrating interfaces and enjoy the convenience of accessing our platform from any device of your choice.
- Tools: HTML, CSS, JavaScript

Portfolio | Github link
- A portfolio website offers a unique opportunity to showcase my work and provide others with insights about myself. It serves as an evergreen platform for displaying your projects, case studies, and personal information. Moreover, it is one of the most effective ways to express your personality, experience, and capabilities
- It is a user-friendly web design that allows users to access it through several devices such as desktops,mobiles, and tablets.
- Tools: React.js and CSS

Songs Playlist | Github link
- Project Showcase : This exciting project entails the seamless organization of a music collection, where you have the power to curate and customize your own folders. With handy features like song addition, deletion, next song playback, and playlist creation, you'll have everything you need to enjoy a truly tailored musical experience.
- This project has provided me with an excellent opportunity to delve into the concepts of Object-Oriented Programming (OOPs) as well as various Java concepts. By working on this project, I have gained a comprehensive understanding of these fundamental principles, which will undoubtedly be invaluable in future endeavors.
- Tools : Java

TECHNICAL SKILLS

Languages: Java and JavaScript
Web Technologies & Frameworks: HTML, CSS and React.js
Developer Tools: VS code
Cloud/Databases: MySQL
Coursework: Data Structures and Algorithms, Object-Oriented Programming and Database Management Systems

ACHIEVEMENTS & LEADERSHIP

Secured Gold Medal — 2019
University Level Cricket — *Guntur*
- I was selected as the captain of the university team for a prestigious competition that featured over 40 teams at the university level team.

NSS Unit Leader — 2020-21
National Service Scheme at Degree College — *Nagarjuna Sagar*
- In my role as a team leader, I efficiently managed a dedicated team of over 100 volunteers. My responsibilities were diverse and included organizing impactful blood donation camps, raising social awareness in rural areas, and much more. I successfully fulfilled these duties by effectively coordinating with my team and ensuring the smooth execution of our projects.
